and safekeeping**

Bellam provides secured self-storage with friendly service

**B**ellam Self Storage has been serving Marin residents since 1982, and is locally owned and operated. On-site daily, Bellam's proud owner and friendly staff enjoy helping the nicest customers in the county with storage and packing supplies, which can also be ordered online. Long considered the best self-storage in the area (and a 2009 winner of the *Pacific Sun's* Best of Marin award), Bellam features a solar-powered, highly secured, concrete building for indoor storage that keeps cool in the summer and dry in the winter—an industry premium! Bellam is also the only self-storage business to be Certified Green since 2006.

Featuring storage sizes ranging from 4x4 to 9x20, each space is individually alarmed and the facility has a modern computerized gate access system. They can accommodate the largest professional moving trucks in the covered loading and unloading areas. For enhanced security, the office is open during all hours that access is available.

The folks at Bellam appreciate their customers—they post the wonderful comments they receive on their website. They invite you to call or visit the self-storage facility any day of the week to see the operation and wide selection of storage and shipping boxes, as well as packing materials; or to get professional advice on how to pack, store and ship, making the entire process easier. Come by for a personal tour and consultation.
